

## Directions

Your task is to “pack a suitcase” with TEN things from your home that would be most important to take along with you if you had to go into hiding for an indefinite amount of time. These 10 items need to fit in a small suitcase (about size of a school backpack). Choose carefully. Don’t forget your essentials (clothing, toiletries). Oh yeah, electronic devices are forbidden! For each item, draw a small colorful picture inside the bag. On the additional paper provided, explain why each item is important to you.
